

Application No. 09/859,503

Docket No.: 4377.0062

REMARKS/ARGUMENTS

Solely in an effort to simplify further the issues on appeal and advance prosecution, Applicants have canceled claims 19-27 without prejudice or disclaimer of the subject matter they contain, and have amended claims 1, 2, 4, 8-17, 28, 32, 36 and 37 to encompass infringing subject matter.

Entry and favorable consideration of the above claim amendment(s) is believed to be appropriate and is hereby respectfully requested because such claim amendments: (a) place the application in condition for allowance; (b) do not raise any new issues requiring further search and/or consideration (since the amendments amplify or address issues previously discussed throughout the prosecution); and/or (c) do not present any additional claims without canceling a corresponding number of finally rejected claims. Upon entry of the above claim amendments, claims 1, 2, 4-18 and 28-38 will be pending. It is believed that the above claim amendments place this application in condition for allowance. Applicants reserve the right to file continuing applications for any canceled or unclaimed subject matter disclosed in the above-captioned patent application.
